NURTURING YOUNG MINDS

TRIPPAS WHITE GROUP

HOSPITALITY SERVICES

# Catering for our future

Trippas White Group Hospitality Services (TWG) is taking a fresh approach to catering services. With a rich legacy spanning three decades, TWG stands as a distinctive force in Australia's hospitality landscape. Striving to shape a brighter future by nurturing young minds.

# Your dedicated hospitality partner

**We have a deep understanding of hospitality in universities – we know we can provide the tools to create and deliver the right experience for all students, residents, alumni and college staff.**

Every day is different in education, and every student is different too. That's why we work with you closely to create a food experience that nourishes, excites and brings the college community together.

Committed to ongoing innovations, we can cater for all to deliver memorable moments, whether it is fresh and healthy college dining, exciting pop ups, formal college dinners or a function for your board members or alumni.

# Our pillars

Trippas White Group Hospitality Services has been formed around these pillars:

---

## REALISING POTENTIAL

Fuelling potential, igniting success: empowering minds with nutritious school food

---

---

## FOOD EDUCATION

Planting seeds of knowledge: cultivating healthy futures through our food education program

---

---

## THINKING SUSTAINABILITY

Growing green, sourcing locally: cultivating a more sustainable food future in schools

---

---

## CONNECTED COMMUNITY

Fostering connection: with students, staff, food producers and our local community

---

---

## PROMOTING HEALTHY CHOICES

Nourishing young minds: empowering students to make informed choices for a healthier future

---

---

## EMBRACING CREATIVITY

Fuelling young potential: re-imagining the university dining with fresh, fun, wholesome choices

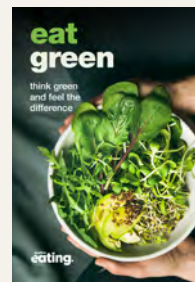

# Positive Eating Program

We believe that great food starts with the right ingredients. Our food vision is to provide healthy, simple, and fresh options to students, particularly when they are away from home.

We also recognise the power of education in informing and empowering students to make positive choices.

To support this, we have developed the **Positive Eating Program**, which encompasses:

- Well-balanced menu choices
- Engaging displays and communication
- Student-centric channels: to foster engagement and participation
- Healthier alternatives and upgrades
- *Food for Thought* education program: includes pop-up events, informative talks, interactive classes, and engaging workshops
- Creating an environment that empowers students to make healthier choices while respecting their autonomy
