What is the TWG difference you ask?

We believe it is striking the perfect balance between being large enough to deliver a great service yet small and nimble enough to genuinely care.

We pride ourselves on maintaining a personalised approach, taking the time to understand and cater to the specific requirements of each student whilst ensuring our client objectives are met.

We know that decisions about a catering company to nurture the young and growing minds of your students is very important. It is our goal to ensure that they are nourished to prosper and thrive during their pivotal academic years.

It is also important to be relevant. Social media, pop culture, health consciousness and cultural shifts are all driving the food choices and menus we need to offer. The world of food is a moveable feast and our programs, themed menus and international dishes speak to the latest food trends that include:

- **Fusion Food**
When two become one
- **Dietary Requirements**
Something for everyone
- **Sustainability**
Feeding the planet
- **Local or native ingredients**
Connecting with country
